

TITLE:

International Research Collaborations

AUTHOR(S):

CITATION:

International Research Collaborations. ICR Annual Report 2014, 21: 108-108

ISSUE DATE:

2014

URL:

<http://hdl.handle.net/2433/197540>

RIGHT:

INTERNATIONAL RESEARCH COLLABORATIONS

[Belgium]

Université Catholique de Louvain, Institute on Condensed Matter and Nano-science

University of Liège, Department of Chemistry

[Chile]

Pontificia Universidad Católica de Chile, Facultad de Ciencias Biológicas

[China, P.R.]

Fudan University, School of Computer Sciences

Fudan University, Shanghai Key Lab of Intelligent Information Processing

Peking University, College of Life Sciences

The Chinese Academy of Sciences, Institute of Chemistry

[France]

Centre National de la Recherche Scientifique, Station Biologique de Roscoff

Université de Rennes, Sciences Chimiques de Rennes

University Lille 1, UFR de Mathematics

[Germany]

GEOMAR, Helmholtz Centre for Ocean Research

Philipps University Marburg, Center for Materials Science

Philipps University of Marburg, Center for Materials Sciences, EM&Mlab

Technische Universität Darmstadt, Department of Chemistry

[India]

North Maharashtra University, School of Life Sciences

[Italy]

Università degli Studi di Napoli Federico II, Dipartimento di Ingegneria Chimica

University of Padova, Department of Chemistry

[Korea, R.]

Jeju National University, School of Mechatronics Engineering

Seoul National University, Institute of Chemical Process

[Singapore]

National University of Singapore, Department of Chemistry

[Spain]

Ciudad Universitaria, Facultad de Ciencias Químicas

University Complutense of Madrid, Department of Physical Chemistry, Chemistry Faculty

University of Málaga, Department of Physical Chemistry

[Switzerland]

Institute of Geochemistry and Petrology, Department of Earth Sciences

Paul Scherrer Institut, Laboratory for Muon-Spin Spectroscopy

Universität Bern, Institut für Geologie

[U.K.]

Imperial College London, Department of Earth Science and Engineering

King's College London, Department of Pharmacy

Plymouth Marine Laboratory

The University of Edinburgh, Centre for Science at Extreme Conditions (CSEC) and School of Chemistry

University of Nottingham, School of Physics & Astronomy

University of Oxford, Department of Materials

University of Southampton, School of Chemistry

[U.S.A.]

Arizona State University, Department of Chemistry and Biochemistry

Arizona State University, School of Earth and Space Exploration

Boston University, Department of Chemistry and Division of Materials Science & Engineering and Center for Nanoscience & Nanotechnology

Boston University, School of Medicine, The Pulmonary Center

Brown University, Department of Chemistry

Columbia University, Department of Chemistry

Emory University, School of Medicine, Department of Pediatrics

Georgetown University, Department of Chemistry and Institute of Soft Matter

Stanford Institute for Materials and Energy Sciences, SLAC National Accelerator Laboratory

Stanford University, Department of Applied Physics

University of Connecticut, Department of Chemistry

University of Maryland, Department of Plant Science and Landscape Architecture

University of Pennsylvania, Department of Materials Science and Engineering

University of Pittsburgh, Department of Medicine

*The list shows the institutions with which papers are co-authored.
